Mr. C. William Uhr, Jr.
MAX Energy Systems LLC
6705 Valley Brook Dr.
Falls Church, VA. 22042

Dear Bill,

It's been two years now since MAX Energy Systems installed a 10 kW generator and transfer switch in my newly-remodeled home. Your attention to the details of that installation, and your follow-up work to make sure the system is always ready, were superb.

As you know, I'm relying on this generator for several purposes, including backing up the power to a critical sump pump. I've slept better at night and been able to vacation without concern knowing that you and your team did such a professional and quality job.

Thank you again for your work to reduce the risk of a power outage. The return in comfort and resale value far exceeds the cost.

Sincerely,

Paul Wilkinson
Arlington, VA
